

To defend and improve the environment for present and future generation has become an imperative goal for man kind . This undertaking urgently calls for new strategies and bring together ,as soon as possible ,all available resources . Education utilizing the findings of science and technology should play a leading role in creating an awareness & a better understanding of environmental problems .It must foster positive patterns of conduct toward the environment & nations use of their resources.

Environmental Education curriculum(EEC) & materials development need ,Guidelines for Designing EE Curriculum format ,model for EE formats ,Guidelines for the Acquisition and transfer of knowledge and skills.
